I am an over the road truck driver and a subscriber to XM Radio. I pay for the services I receive and I utilize the radio as a tool in determining what routes to go and which ones to stay away from . By listening to the weather and road reports I can better plan routes around inclement weather or major traffic congestion. Let us who need the service and who pay for the service utilize what we need to do our job in the most efficient manner. Thank you for your time. David Jackson
